- Visits to tribal villages

Flora and Fauna of Kaziranga National Park

Kaziranga National Park, Assam

The National Park covers about 850 sq. kms, bordered on the north by the Brahmaputra River and on the south by the Karbi Anglong hills. The largest number of one-horned rhinoceros in the world roams its swamps, grasslands with tall thickets of elephant grass and areas of mixed deciduous and tropical semi-evergreen forest. It is home to a wide variety of other animals and birds, and the open vistas make it relatively easy to see many species of wildlife in a day.

Fauna

As well as the Indian rhino, the Park contains about 35 major mammals, including wild elephant, tiger, small population of hoolock gibbon, capped langur, bristly hare, hog badger, otter, leopard, wild boar, sambar, swamp deer, hog deer, muntjac, water buffalo and gaur. Among the rich birdlife are the rare greater adjutant stork, Bengal florican, black-necked stork, lesser adjutant stork, Pallas's fish eagle, swamp partridge, grey peacock-pheasant, great pied hornbill, green imperial pigeon, babblers and thousands of migratory birds, seasonally attracted to the various water areas of the park from as far away as Siberia.

Getting there

Diphlu River Lodge is situated on National Highway 37, 220 kms east of Guwahati, Assam and only 3 km from the Baguri Forest range office and elephant ride point of Kaziranga National Park. It is therefore ideally placed for easy access.

There are scheduled flights from Kolkata, Delhi, Mumbai and Bangkok into Guwahati airport, and from Kolkata into Tezpur and Jorhat airports. Guwahati is approximately 4 hours driving time, Jorhat 2 1/2 and Tezpur 1 hour. Arrangements can be made to collect guests from the airport at extra charge.

Our Bansbari Lodge at Manas National Park on the Bhutan border is 7 hrs drive away. It is also possible to reach Kaziranga from Guwahati or Dibrugarh on one of Assam Bengal Navigation's Brahmaputra cruises.

Safety and Security

The walkways at the Lodge have low-level lighting to guide guests to their room, along with a security escort if required, and all guests are given a torch to use. Since the surface of the walkways is unevenly woven bamboo, please make sure you bring sensible shoes. In the Park naturalists are trained in animal behaviour, first aid and outdoor emergencies. There is a doctor available on call.
