Monsoon Magic 2011

Monsoon in the North Eastern States starts in July / August / September but we do get some amount of shower from May onwards. Month of May and June are particularly pleasant in the Northeast (temperature expected between 16-26° C) compared to the North and South India (temperature expected in May – June between 45-48° C).

Plan your visit to the North East India this Monsoon. Do not forget to bring light woolens !

You will need them if you are visiting a Hill station like Shillong in Meghalaya, Ziro or Tawang in Arunachal Pradesh in May or June.
